EPIPHONE 940-EB3CS BASS CASE - BLACK

The Epiphone EB3 case is a great way to protect your Epiphone EB3 bass guitar. Made out of top quality materials and made for your specific guitar these are fantastic cases to help transport your guitar.

A well fitting hardshell case is the best way to protect your guitar investment. While a soft case or bag is good for the occasional journey if you travel regularly/tour you'll need something with a lot more stability and security. Hard cases are also great for storing your guitar between shows.

This case fits the following models:

- Epiphone EB3 Bass
- Epiphone EBO Bass
