ELECTRO HARMONIX DELUXE MEMORY MAN TAP TEMPO 550

ELECTRO HARMONIX DELUXE MEMORY MAN TAP TEMPO 550

For over 30 years, the Deluxe Memory Man has been the industry bottom line for sweet organic delay and modulation. Prized by serious musicians, the DMM became the definition of attitude and character that still leads the way to analog perfection.

Electro-Harmonix has now created the ultimate Deluxe Memory Man equipped with Tap Tempo 1100mS, Expression Control and an Effects Loop. Adding Tap Tempo ensures that you will always be in sync with the groove, wherever your performance takes you, while five Tap Divide subdivisions deliver rhythmic variation. The Expression Pedal Input provides real time control over Blend, Rate, Depth, Feedback and Delay. The Effects Loop lets you insert effects into your wet signal without changing your dry signal, making the Deluxe Memory Man with Tap Tempo 1100 the most powerful analog delay ever designed.
