SABIAN XSR O-ZONE CRASH 18"

18" XSR O-Zone

Using the 18" XSR Fast Crash as a starting point, SABIAN has applied the highly-effective and successful B8 Pro double-ring O-Zone hole design to a B20 cast cymbal for the first time. The result is a darker, quicker effects crash with more white noise and more pure attack. The two rows of eight response-enhancing holes allow this radical effects crash to respond rapidly with a combination of bright explosion and dirty agitation, delivering even attack that is aggressive, raw and nasty. Makes an ideal stacker over the 18" XSR Chinese!

Style: Vintage

Sound: Bright
