MOTU M2 SCHEDA AUDIO USB C 2X2

M2 e' un interfaccia audio USB-C per Mac, Windows e iOS che permette di registrare la voce, strumenti o altre fonti audio in modo semplice e veloce. Include software di produzione MOTU Performer Lite e Ableton Live Lite, oltre 100 strumenti, decine di plug-in e oltre 6 GB di loop e campioni per iniziare subito a fare musica.

Ulteriori caratteristiche sono ingressi combo XLR per strumenti mic/line/hi-Z, guadagno con preamplificatore individuale e alimentazione phantom 48V, monitoraggio hardware one-touch, supporto per il monitoraggio stereo, uscite bilanciate da 1/4" DC-coupled, uscite RCA sbilanciate (con mirroring), uscita per cuffie con controllo indipendente del volume, MIDI in/out, canali "loopback" del driver per live-streaming e podcasting, e alimentazione bus USB con interruttore di alimentazione (cavo USB incluso).

- 2-in / 2-out USB audio interfaces with studio-quality sound
- Best-in-class audio quality driven by ESS Sabre32 Ultra™ DAC Technology
- Best-in-class speed (ultra-low latency) for host software processing
- Best-in-class metering for all inputs/outputs with a full-colour LCD
- 2x mic/line/hi-Z guitar inputs on combo XLR/TRS
- Individual preamp gain and 48V phantom power for each input
- Hardware (direct) monitoring for each input
- Measured -129 dB EIN on mic inputs
- Balanced, DC-coupled 1/4-inch TRS outputs (2x for M2' 4x for M4)
- Measured 120 dB dynamic range on the 1/4-inch balanced TRS outputs
- RCA (unbalanced) analog outs that mirror 1/4-inch outs (2x for M2' 4x for M4)
- 1x headphone out (driven by ESS converters) with independent volume control
- MIDI in/out
- Support for 44.1 to 192 kHz sample rates
- USB audio class compliant for plug-and-play operation on Mac (no driver required)
- Windows driver with 2.5 ms Round Trip Latency (32 sample buffer at 96 kHz)
- Mac driver (optional, for 2.5 ms RTL@32/96 kHz and loopback feature)
- iOS compatible (USB audio class compliant)
- Driver loopback for capturing host output, live streaming and podcasting

Bus-powered USB-C (compatible with USB Type-A) with power switch (USB cable included)
Rugged metal construction
Workstation software included (MOTU Performer Lite 10 and Ableton Live Lite 10)
100+ instruments (in Performer Lite)
Over 6 GB of included free loops, samples and one-shots from industry-leading libraries
Kensington security slot
Built-in the USA
