

## WINCENT W-40H

31,40 € tax included

Reference: W-40H

W-40H | W40H | W 40H | Brush | Spazzole | Drum sticks | Wincent

Back in 1995, Wincent was the first company to launch a steel-wire brush line, which offered 3 different wire thicknesses. The goal is to manufacture brushes with the best feel, balance and durability. Wincent brushes are handmade in our factory by Swedish craftsmen. The brushes are equipped with a genuine smooth rubber handle that creates a great feel and provides a perfect grip. New for 2010 is also the new color coded triangle pull rod tip of the brushes. This makes it easy to identify your brushes in your stickbag.

### Steel Brushes:

- The brushes are incorporated into durable, long-lasting plastic handles;
- They can be protected by inserting the brushes into the handles;
- The slightly thicker steel brushes produce a broad sound and are characterised by their great sound volume;
- Length: 355 mm;
- Dia: 14 mm;
- Brush`s Material: Metal;
- Wood Grip: No;
- Retractable: Yes
