SUPPORTO CHARLESTON | ASTA HI HAT

Boasting the same sturdy tubing and tier joints as Pearl's 930 Series stands, the new single-braced H1030S Series Hi-Hat stand is now available as a counterpart to Pearl's new Eliminator: Solo bass drum pedals. Its smooth, traditional footboard performs with resistance-free precision, while the independent Trident tripod is positioned separate from the pedal frame to easily accommodate double bass drum pedals.
