TAYLOR GT811E GREAND THEATER - NATURAL

TAYLOR GT811E GREAND THEATER - NATURAL

More and more players want the playing comfort of a smaller acoustic guitar without having to sacrifice tone. So Taylor master builder Andy Powers set out to design a new guitar that could deliver on both fronts — combining the inviting feel of a compact instrument with the rich voice of a full-size, all-solid-wood guitar.

Designed from the ground up, the new Taylor GT™ (short for Grand Theater) introduces a new category of acoustic guitar in size, feel and sound. Crafted on Taylor's California campus, the GT's uniquely modern proportions make it super fun and easy to play, with a big sonic personality worthy of any pro player's toolbox.

Featuring all-solid-wood construction, the GT belies its size with a high-octane musical response. The secret sauce is our new C-Class™ voicing architecture inside the guitar. Inspired by our acclaimed V-Class® bracing, the C-Class design enhances the volume and sustain, while its unique asymmetrical pattern accentuates the lower frequencies. This allows the GT to produce a surprisingly warm bass response for its compact dimensions. The sound is sweet, focused and responsive — perfect for recording or plugging in with our ES2 pickup.

Features:

- **Formato: Grand Theater**
- **Top: Abete Sitka**
- **Fondo e fianchi: Palissandro**
- **Bracing: Classe C**
- **Binding: Acero**
- **Legno del manico: Mogano neo-tropicale**
- **Manico: Standard Carve**
- **Tastiera: Crelicam Ebony**
- **Intarsi: Element in madreperla**
- **Tasti: 20**
- **Scala: 24,125" (612,75mm)**
- **Meccaniche: Taylor Smoked Nickel Mini**

- Ponte: Ebano
- Capotasto: 1.719"
- Elettronica: Taylor ES-2
- Colore: Naturale
- Finitura: Lucida
- Custodia AeroCase inclusa
