QSC TOUCHMIX 30 PRO DIGITAL MIXER 32 CANALI
+ TOTE BAG- BUNDLE

Un nuovo straordinario standard per le prestazioni in un mixer digitale compatto, il TouchMix-30 Pro ha le caratteristiche e funzionalità in grado di soddisfare il professionista più esigente, fornendo inoltre un flusso di lavoro intuitivo che offre ottimi risultati, in modo rapido e semplice, per gli utenti ad ogni livello di Esperienza. Perfetto per i professionisti di produzione, musicisti e band, nonché luoghi di spettacolo dal vivo, i suoi 32 canali di miscelazione (24 Mic / Linea, Linea 6, Stereo USB) e 16 uscite offrono una grande flessibilità di gestione del segnale per una vasta gamma di applicazioni.

CARATTERISTICHE TECNICHE :

Large (10-inch) multi-touch touchscreen offers more on-screen information while also providing greater hands-on control

Anti-Feedback and Room Tuning Wizards simplify complex equalization tasks

Two real-time analyzers (RTA) provide instantaneous analysis of channel tonal balance and room response

Function easily duplicates mixes, channels, EQ, dynamics and more.

Touch-and-route patch matrix for easy "multing" and rearrangement of inputs

Eight sub-groups with 6-band full parametric EQ, variable high-pass and low-pass filters and limiter may be linked for stereo

32-channel direct-to-hard drive record/playback - capture and recall performances without the need for an external computer

32-Channel DAW interface with Apple® computers allows for bidirectional I/O with popular workstation software

MP3 playback direct from USB

Additionally, TouchMix-30 Pro offers even more of what customers have come to expect from a TouchMix Series mixer, including:

24 class-A microphone preamps deliver pristine, studio-quality audio

Over 120 live instrument, microphone and other audio source presets created in live environments provide mix-ready channel settings

All outputs feature 1/3 octave graphic equalization and 6-band parametric EQ plus limiters, delay and 12-band notch filters

14 mono mixes may be paired for stereo while two pairs of Auxes can drive wired in-ear monitors (IEM) directly

Six stereo effects processors plus pitch-correct offer studio-grade signal enhancements, without sacrificing Auxes or additional channels
